India's landing card rule, effective October 1, 2025, requires all foreign nationals and OCI cardholders to complete a digital e-Arrival Card within 72 hours of their flight. This online form replaces the paper-based disembarkation card and captures personal and travel information to streamline immigration, though physical cards are still accepted for a limited time. Indian citizens are exempt from this requirement.

Who needs to fill it out

All foreign nationals arriving in India.

Overseas Citizen of India (OCI) cardholders.

Travelers on tourist, business, student, and other visas.

How to fill out the e-Arrival Card

When to apply: Between 1 and 72 hours before your flight to India.

Where to apply: Online through the Indian Visa Online portal, the Bureau of Immigration website, or the "Su-Swagatam" mobile app.

Information needed:

Passport and visa details.

Flight and arrival information.

Purpose of visit.

Address in India.

Emergency contact information.

Countries visited in the previous six days.

Key changes and tips

Digital is mandatory: The digital form is the new standard to speed up the arrival process.

Paper forms still accepted: The traditional paper form will continue to be accepted for the next six months, but the digital option is recommended for a faster experience.

Confirmation is key: After submission, you will receive a confirmation email with your digital card for immigration clearance.
